

## ***When high credibility counts COMTECH is the one***

experience the epitome of engineering excellence with Comtech Steel Industries LLC, From street lighting poles and Lattice Towers to Solar Mounting structures, our diverse range of products delivers unparalleled quality and innovation. Illuminate your projects and empower your vision with our customizable steel solutions.

### **OUR PRODUCTS**

- 1 Street Lighting Poles**
- 2 Substation Steel Structures**
- 3 Solar panel Mounting Structures**
- 4 Custom Steel Structures**
- 5 Telecommunication Structures:**
  - Lattice Towers
  - Monopoles
- 6 Roof-Top Structures:**
  - Penetrating
  - Non-penetrating
- 7 Transmission Structures:**
  - Lattice Towers
  - Poles

## Engineering Excellence

CSI has invested significantly in advanced design programs to engineer highly economical lattice tower structures. Our team of engineers, draftsmen, and detailers ensures each tower's structural stability and adherence to international standards.

## State-of-the-Art Fabrication

Using state-of-the-art CNC machines, we fabricate our products with precision, minimizing manual handling. We source raw materials from top European steel mills, ensuring consistent quality and performance.

## Galvanization Excellence

At CSI, we prioritize the longevity and sustainability of our products by entrusting their galvanization to our sister company's facility, Galva Hub—the largest galvanizing pool in the UAE. This ensures thorough treatment and enhances the durability of our structures, contributing to their long-term performance and environmental responsibility.

## Commitment to Quality Control & Assurance

Quality is fundamental at CSI, from project preparation to final delivery. Our unwavering commitment to quality sets us apart, ensuring customer satisfaction every step of the way.
